

6949

I hereby submit the following as testimony against bill HB 6949:

I strongly oppose bill HB 6949 on the grounds that it violates my First Amendment right to free exercise of my religious beliefs. The proposed bill is also in direct violation of my Fifth Amendment right which protects me from bearing witness against myself. It is blatantly unconstitutional to force me to sign a legal statement incriminating myself in order to exercise my First Amendment right! This is an unlawful infringement on my rights. Please vote against this bill.
